

JUNIOR LIFE SKILLS

Safety Education for Young People

Dear Teacher,

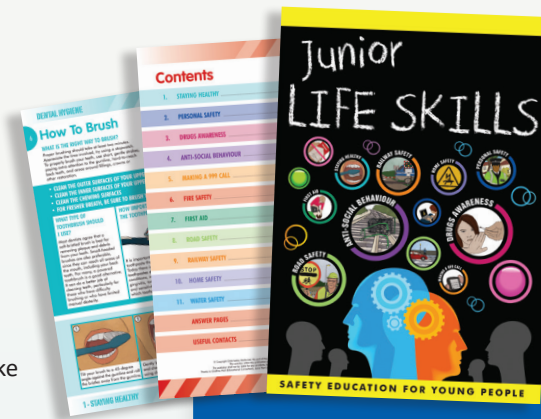

The move from primary to secondary school is an important time for every child. Child Safety Media events encourage young people to make the right choices, promoting greater independence and wellbeing in later life.

For schools that attend our events we have developed this online 'virtual safety experience'. The Junior Life Skills E-Book allows young people to encounter real-life scenarios at the push of a button on a platform that they interact with on a daily basis. It is easily accessible, engaging and helps promote effective learning both inside and outside the classroom.

As a qualifying school you are automatically entitled to access this resource for an entire academic year. Simply click on the link below, register and save the link to your 'favourites' bar.

To access your online safety programme visit:
