Computing

Teaching in the Summer Term 2021

We have missed the Spring term this year due to COVID restrictions and therefore need to establish ah agreed 'critical content' for the Summer term which is agreed and can be built on by the following teacher.

In Computing, we have a scheme which identifies key areas of the national curriculum. Two topics have been chosen as key in order to proceed throughout the rest of their time in school and have therefore been given priority. The topics have been highlighted on the Long Term Plan below.

Online safety has been prioritised in Every Year group as it is a fundamental aspect of working online and in Computing.

It is important in sequencing lessons that we remember to use the Knowsley MBC scheme and it is important that children are taught each of the objectives in every unit identified.

The teacher next year can then be certain about what the teacher has taught and what the children have learned.

	1	2	3	4	5	6
Nursery						
Reception	Technology and me		My online life		Animal safari	
Y1	What is a computer?	Animate with shapes	Modern tales (online safety)	Mini-Beasts	My friend the robot	My friend the robot
Y2	Stop go animation	Book Creator	Online life	Online buddies	Presentation	Coding
Y3	Online detectives	Be digitally awesome	My Online life	Dancing robots	Rainforests	T-shirt designer
Y4	Hour of code	Minecraft challenge	My online life	Real or fake	Endangered species	Dinosaurs
Y5	Web designer	STEAM challenges	My online life	youtuber	AR Games	News Reporter
Y6	Crossy roads	Coding playgrounds	My online life	Online safety dilemas	Quiz show host	VR worlds
